11 centres (out of 19 recruiting centres) have reached 100 % documentation of relevant patient data for interim analysis on July 9<sup>th</sup> compared to 5 centres on June 24<sup>th</sup> (see last newsletter under [www.dispact.de](http://www.dispact.de)). Overall, 11 centres have improved their percentage within the last 2 weeks.

Thank you for this great support !

We urge all remaining centres to have their relevant patient data documented in MACRO during the next few days.

**Deadline will be Monday, the 14<sup>th</sup> of July 2008**, as we need to close the DISPACT trial data base next week to perform the interim analysis. Please contact us, if you have any questions.

With kind regards

The DISPACT Steering Committee and the DISPACT Team at the SDGC
